Multi-agency Training Catalogue

February 2024

Kent Safeguarding Children
multi-agency partnership

Contents

Kent Safeguarding Children
multi-agency partnership

Overview

The programme is developed to give a range of necessary multi-agency topics, as well as deliver learning derived from practice reviews.

Core courses are those which cover learning which is integral to safeguarding children foundation knowledge.

The courses are set across three levels:

1 – introductory

2 – understanding and application

3 – advanced and specialist.

All training content can be accessed via the KSCMP MeLearning portal, including e-learning, recorded webinars, and course bookings. Most KSCMP courses are free of charge to attend, there are a small number of courses which do have a small charge for materials associated to the course. Where there is a cost for attendance this is indicated both in the course description in this catalogue, and also when booking a space in the portal. Given the limited number of training spaces available for a large professional workforce in Kent, KSCMP does have a non-attendance fee for courses, details of which are provided when booking a space on course.

KSCMP underpins the learning from the programme through a range of broader supporting resources, including factsheets, video explainers, and practice resources. All of these are available in the 'Training and Resources' section of the KSCMP website.
